jackiecheung@pursuit.org | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

## Technical Skills

---

**Front-End Development:** Javascript, Python, HTML, CSS, React, Bootstrap, Socket IO, Swiper, Code Review, Pair Programming  
Tailwind CSS

**Back-End Development:** Postgresql, MySQL, Nodejs,, Express.js, RestFul API, Postman, ElephantSQL, Data Structures,  
Algorithms, Sprint, Agile, Git

**Additional Deployment:** Netlify, Render, Figma, Trello, Miro(ERD)

## Software Engineering Applications

---

GoalHive | [Live Project](#) | [Github](#)

Feb 2024- April 2024

**Technologies Used:** Javascript, HTML,CSS, React, Socket IO, React Swiper, Bootstrap, PostgresQL,Node.js

**Synopsis:** An user-friendly application that interacts with like-minded peers to support goal completion, offering personalized goal setting, progress tracking, and motivation. Empowering users to stay motivated and committed to long term goals and build meaningful relationships.

**Technical Results:**

- Utilized Socket.io chat box for users to interact on the main home page of the app.
- Used authentication and json web token for users to login in securely on mobile view.
- Added swiper.js functionality for users to scroll through our app and find users with similar goals to match their interests.
- Implemented a PostGres database to store user information, goals, and progress tracking.

Responsive Portfolio Website | [Live Project](#) | [Github](#)

July 2024 - Sept 2024

**Technologies Used:** Javascript, HTML,CSS, React, Bootstrap, React-Slick, Slick-Carousel, Web-Vitals, Materials-Design

**Synopsis:** A responsive portfolio website showcasing my work experience and skills of a software developer.

**Technical Results:**

- Uses a react slick carousel to swipe through the work experience of the current user.
- Added a graph functionality on showcasing my skills.
- Implemented a contact form for users to contact me about opportunities.
- Uses media queries to make sure pages are adjusted in different sizes on the webpage.

## Professional Experience

---

Pursuit / Software Engineering Fellow

March 2023 - Present

- Completed 3 web application projects using a variety of programming languages and technologies.
- Built RESTful APIs and integrated data from third party APIs to build projects.
- Utilized Git and Github for version control, used Netlify and Render for deployment.
- Technologies used: JavaScript, HTML, CSS, Bootstrap, Express, Node.js, MySQL, PostgreSQL, React/Redux, Data Structure, Algorithms, Sprints, Agile

QueenScottishFold / Social Media Ambassador

June 2020 - Present

- Upload 20 posts of content per month, including daily instagram stories to showcase ScottishFold and British Shorthair to consumers.
- Stay up to date with the latest kitten-related social media trends.
- Actively engage with followers by responding to comments, running polls, Q&As and encouraging user-generated content .

Project FIND /Social Worker

Feb 2022 - Apr 2022

- Created and completed case files, detailing key client information during intake process
- Managed and entered data into STARS and Access databases.
- Guided clients through key benefits enrollment processes, including SNAP, Social Security, etc
- Provided administrative services, handling confidential information.

Outreach Specialist/Bowery Residents' Committee

Nov 2017 - Apr 2020

- Managed client intake and placement process, kept meticulous files to maintain accurate client information
- Performed outreach and recruitment across 4 NYC boroughs.
- Recognized and documented the signs and symptoms of mental health and substance abuse issues on AWARDS, CARE and Street smarts application.
- Answered phone calls from the Brc Helpline, 311 and Diversion calls for the 4 boroughs, maintaining Operations database.

## Education

---

Pursuit | Queens, NY | Advanced Software Engineering Immersive Program

April 2024

CUNY York College | Queens, NY | Bachelor of Community Health Education

June 2016
